

SightSensor HD

Smart Thermal Camera for Outdoor Intruder Detection

The SightSensor HD combines powerful thermal and visible AI for outstanding intruder detection at perimeters and outdoor areas.

Dual-Sensor AI (DSA)

Exceptional detection, low false alarms day or night

Geospatial Target Zones

Accurate rules on size, speed, bearing, location

Smart Stabilization

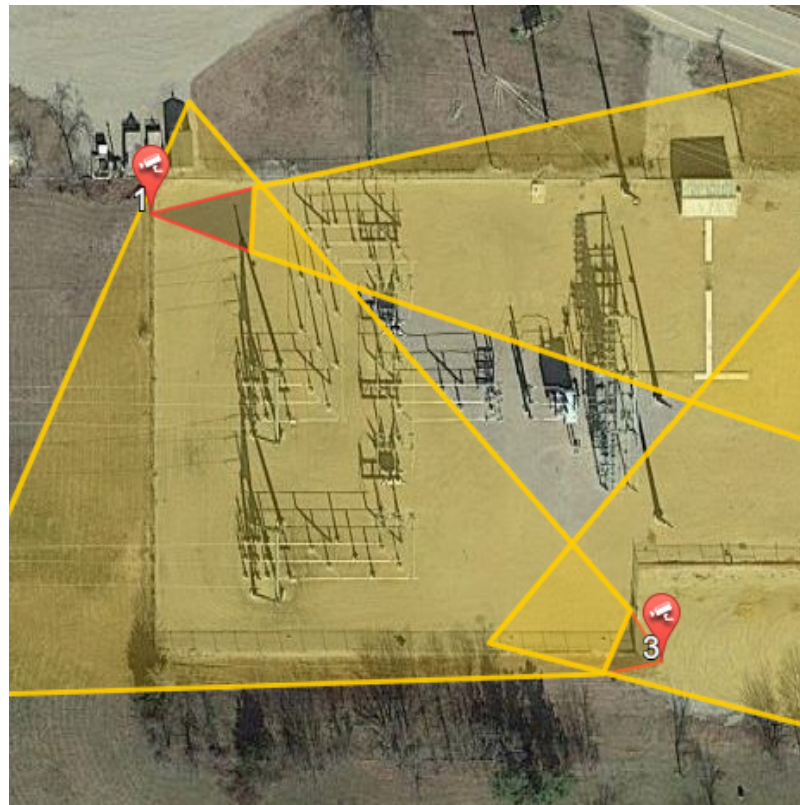

Accuracy in wind, vibrations, camera shake

Long-Range and Wide Areas

Protects large areas over hundreds of meters

Buffer Zone Protection

Early warning for pre-emptive response

Built for the Most Important Sites – Yours

Our system has been purpose-built to detect outdoor intruders - and help protect critical business assets.

Proactive Security

Detects intruders the instant they breach the fence.

Site Perimeters

Data Centers

Intelligent Protection

Smart sensors never tire, seeing through darkness, rain, wind or snow.

Government Sites

Airports

Get More for Less

For the dollar, smart thermal sensors outperform - per square foot - any other detection technology.

Detect and Verify

Dual-video cameras use thermal and visible to detect and verify the event in progress.

Construction

Municipal Storage

Sensors Won't Cry Wolf

Our systems are built to detect people, not animals, trash, or trees.

Vehicle Lots and Transportation

Utilities

Faster Response

Video-verified events get higher priority to catch intruders in the act.
