

# Introducing **Thermal** Security from SightLogix

The SightSensor HD smart thermal camera offers 24-hour, long-distance protection for outdoor sites – with great detection, low false alarms, and outstanding performance for your customers' outdoors needs.

## Unmatched Thermal Security

### Protect More with Less

Secure high-value sites with fewer devices

### Cover Hard-to-Reach Areas

More flexibility with wider angle/longer ranges

### Thermal by Night/Visible by Day

Detection and color assesment in one device

### All Weather Reliability

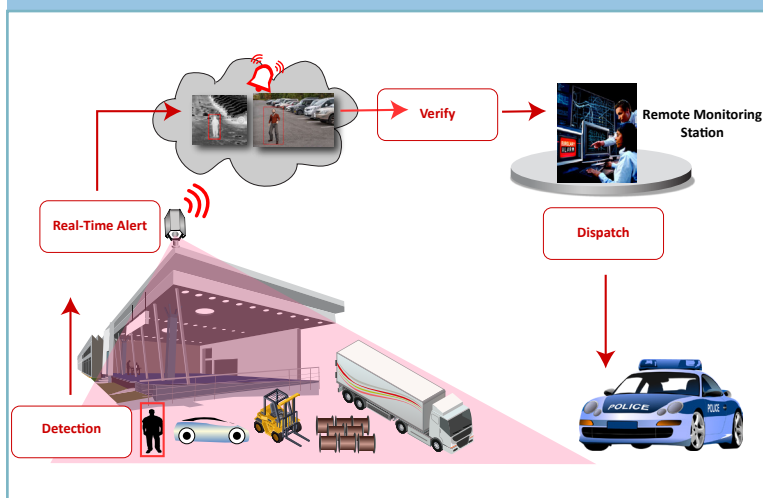

Detects through rain, snow, darkness

### Better Value than Alternatives

Outperforms beams and sensors

## HOW IT WORKS

1. Smart sensors blanket your site with protection
2. Intruders trigger alarms & video to central station
3. We assess the threat, confirm, and send police

# Built for the Most Important Sites – Yours

Our system has been purpose-built to detect outdoor intruders - and help protect your critical business assets.

## Proactive Security

Detects thieves the instant they breach the fence.

Construction Sites

Fenced Yards

## Intelligent Protection

Smart sensors never tire, seeing through darkness, rain, wind or snow.

Vacant Buildings

Lumber & Building Supplies

## Get More with Less

For the dollar, smart thermal sensors outperform - per square foot - any other detection technology.

## Detect and Verify

Dual-video cameras use thermal to detect and color to quickly verify the event in progress.

Schools & Sports Fields

Building Roofs

## Sensors Won't Cry Wolf

Our systems are built to detect people, not animals, trash, or trees.

Parking Lots

Substations

## Faster Police Response

Video-verified events get higher priority to catch bad guys in the act - reducing business loss.
