

SightSensor NS

Smart Thermal Camera for Perimeter Intruder Detection

The SightSensor NS combines powerful processing and edge-based analytics for outstanding intruder detection at perimeters and outdoor areas.

Powerful, Edge-Based AI Analytics

Exceptional detection, low false alarms, day or night

Geospatial Target Zones

Accurate rules on size, speed, bearing, location

Smart Stabilization

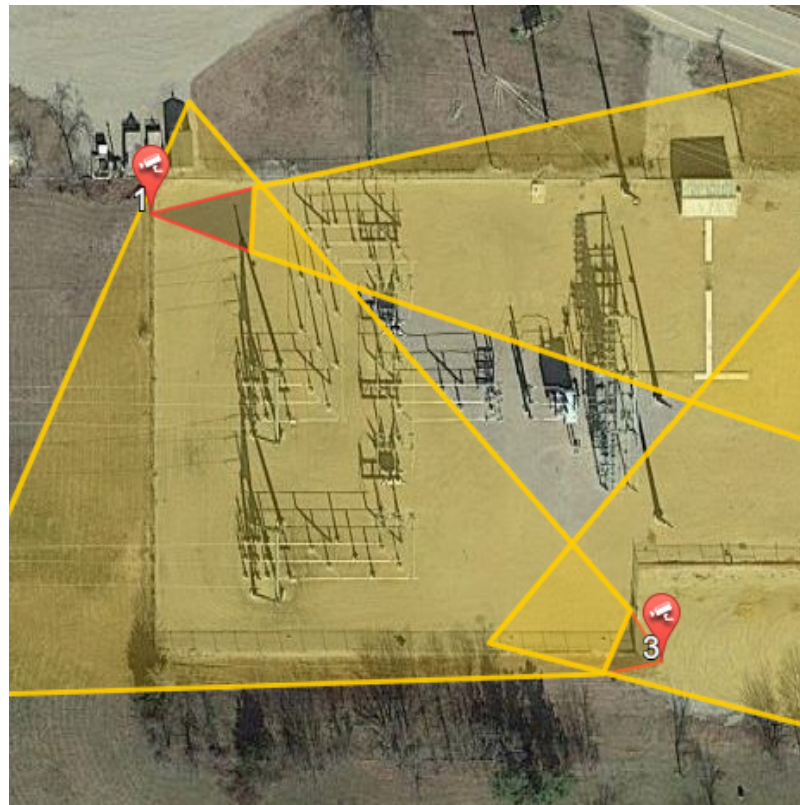

Accuracy in wind, vibrations, camera shake

Long-Range and Wide Areas

Protects large areas over hundreds of meters

Buffer Zone Protection

Early warning for pre-emptive response

Built for the Most Important Sites – Yours

Our system has been purpose-built to detect outdoor intruders - and help protect critical business assets.

Proactive Security

Detects intruders the instant they breach the fence.

Site Perimeters

Data Centers

Intelligent Protection

Smart sensors never tire, seeing through darkness, rain, wind or snow.

Government Sites

Airports

Get More for Less

For the dollar, smart thermal sensors outperform - per square foot - any other detection technology.

Detect and Verify

Powerful, wide-dynamic thermal clarity helps classify the intrusion in progress.

Transportation & Warehousing

Mining, Oil & Gas

Sensors Won't Cry Wolf

Our systems are built to detect people, not animals, trash, or trees.

Chemical Industry

Utilities

Faster Response

Video-verified events get higher priority to catch intruders in the act.
